

Any league fixture can be postponed once only. If for any reason a match is postponed for a second time, the offending team(s) will receive a 2-point penalty and the committee will decide the outcome of the match. Any postponed match should be played within four weeks of the original match date. Teams should remember that instead of cancelling matches, it is possible to play up to six frames with only two players. The committee reserves the right to review any extraordinary circumstances

A team may play with four players, with one player playing three frames, two players playing two frames, and the remaining player playing only one frame; for whatever reason.
