

ENGLISH PARTNERSHIP FOR
SNOOKER AND BILLIARDS

EPSB Return to Play – Guidance on restarting league snooker

These COVID-19 guidelines apply to England only. They have been produced in line with UK Government announcements on the easing of lockdown restrictions.

They should be followed in conjunction with the [EPSB's English Snooker Facilities Re-opening Guidelines](#).

Introduction

The EPSB acknowledges that competitive snooker and billiards through local league activity plays a pivotal role both for sustaining our network of clubs and in benefitting the physical and mental health of individuals who participate.

[Affiliated snooker clubs](#) in England that wish to host local league competitions, including visiting teams, can do so from **1 August 2020**, provided the club can offer a COVID-19 secure environment and that all parties can safely adopt the guidelines contained in this document.

While this guidance applies to England, you should always consider whether there are local restrictions in place in your area. If you live, work or volunteer in an area that is experiencing a local COVID-19 outbreak and where local restrictions have been imposed, different guidance and legislation will apply. Please consult the [local restrictions pages](#) to see if any restrictions are in place in your area.

The EPSB has produced this guidance to make the return to snooker and billiards as safe as possible. We recognise that risk in sport cannot be completely eradicated, but with caution and care risks can be reduced and the benefits of team sport enjoyed fully again.

We recommend that affiliated clubs, local league committees and league players carefully read the guidance contained below to understand how we can all play snooker and billiards safely, following measures to mitigate the risks of COVID-19 transmission.

Club Preparation

All clubs hosting competitive league matches will need to comply with the guidelines set out by the EPSB in its [English Snooker Facilities Re-opening Guidelines](#).

These include the following key points applicable to league competition:

Standards of Hygiene

- Commit to a thorough clean of the venue daily
- Access to hand sanitiser will be provided at all tables, entrances and toilets
- Club snooker balls and boxes/trays will be cleaned and wiped after every match/rubber
- Staff should wear face coverings and gloves
- Table and equipment will be cleaned between matches/rubbers, with special attention to touch points, such as table edges, scoreboards, triangle, rests

Limit Entry

- Match start/finish times should be carefully considered to avoid any overlap with other club members, and allowing time to clean the area
- Venue entry will be controlled/monitored by staff, where applicable. Social distancing measures should be in place to control any queues

Social Distancing

- Risk assessment to be completed by the club to ensure it is COVID-19 secure in line with current social distancing guidelines
- Clear signage for customer flow to enable players to get to and from allocated tables. This includes government guidance signage on prevention measures
- Tables are used at least one table apart. Where table layout is not uniform, this will be risk assessed for social distancing
- Club will monitor toilet usage to mitigate too many people being in the same area

Hospitality

- Bar areas must have COVID-19 secure measures in place according to UK Government guidance
- All payments will be contactless or online, wherever possible

League Preparation

Risk Assessment

Leagues and host clubs must consider safety first, particularly minimising the risk of infection/transmission.

A thorough risk assessment must be undertaken/updated by the league, liaising with host clubs.

Appropriate measures must be put in place to ensure participants, staff and volunteers are protected.

Leagues should carefully consider its selection of host clubs in terms of the space available around their snooker tables, the capacity of the clubs, hygiene and social distancing measures in line with the current [UK Government guidance](#) and our [EPSB Covid-19 Guidance](#).

Pre-attendance Symptom Check

All league players should undergo a pre-attendance self-assessment for any COVID-19 symptoms using the [information on the NHS website](#) before leaving home.

No-one should leave home to participate in snooker or billiards if they, or someone they live with, has symptoms of COVID -19, including:

- A high temperature
- A new, continuous cough
- A loss of, or change to, their sense of smell or taste

If individuals demonstrate any such symptoms, they must follow the [NHS guidance on self-isolation](#).

NHS Test and Trace

If any participating player develops symptoms of COVID-19, that player should be directed to follow the [NHS test and trace guidelines](#).

To support NHS test and trace, clubs and leagues should keep a temporary record of participants for 21 days, and assist NHS test and trace with requests for that data if needed.

Communication

The league and host clubs should liaise to ensure an agreed approach to activity that is feasible to deliver safely, which should be communicated to all league members in advance of a return to play.

Leagues should make its members aware in advance that undertaking any activity, including snooker and billiards, has the potential for increased risk of transmission of COVID-19, and advise players to read the [UK Government's guidance on staying safe outside your home](#).

Leagues should consider the UK Government's [guidance on shielding and protecting people who are clinically extremely vulnerable from COVID-19](#) to offer specific advice to any league members who fall into the clinically vulnerable category.

League Format Adjustments

As stated above, clubs in England that wish to host local league competitions, including visiting teams, can do so from **1 August 2020**, provided the club can offer a COVID-19 secure environment and can safely adopt the guidelines contained in this document.

We know that leagues across the country have a huge variety in format. Each league should consider its format so that it complies with the current [UK Government guidelines](#), which states that only two different households can meet in any indoor space.

Based on these current guidelines, we recommend that leagues apply the following principles:

- Each league match should be pre-scheduled so that players on both teams know what time they are required to play, which player they will play and which table they will play on

- League teams should be advised to stagger arrival and leaving times of individual players, scheduled in advance
- Any players not involved in matches, spectators, parents or guardians should be seated in designated areas away from the match tables, while also strictly observing social distancing
- League formats should be adjusted, where necessary, to ensure players do not compete against more than one opponent during a single session
- Leagues should schedule fixtures to avoid clubs hosting multiple matches where social distancing between tables cannot be observed
- Competitive doubles matches/rubbers are not permitted, until further notice
- Refereeing or marking of matches is not permitted, until further notice
- There should be no presentations or other activities that would encourage a gathering of people

Player Protocols

Before arrival...

Players should wash their hands with soap and water for at least 20 seconds before leaving home and sanitise their hands before and after play.

Participants are encouraged to follow best practice for travel including minimising use of public transport and limiting car sharing. Walk or cycle if you can. People from a household or support bubble can travel together in a vehicle. See the government's [safer travel guidance](#) for passengers for further information.

Players must not enter the club if they are symptomatic or living with someone who has a possible confirmed case of COVID-19 – please read the 'Pre-attendance Symptom Check', above.

At the club...

All players shall abide by the following protocols throughout their time in the venue:

- Social distancing between players should be maintained at all times, in line with the latest [UK Government advice on staying alert and safe \(social distancing\)](#)
- Players will be encouraged to bring their own cues from home
- Player seating will be at least two metres apart
- Players will have access to hand sanitiser at all tables, entrances and toilets
- All players will be allocated their own set of table accessories to minimise contact, and will be responsible for fetching and returning this equipment to its position in the club
- Strictly no handshakes or physical contact between players
- Avoid unnecessarily touching club surfaces, and minimise sharing touch points such as triangles and score boards
- Prior to re-entering the club, after any toilet breaks or intervals, players will be requested to perform hand washing for 20 seconds with soap and water in addition to using a hand sanitiser
- Players should use their own cue, chalk and cue towel, and not leave these on the table
- Players must pack up and leave the designated table at the end of the match/rubber before the next two players approach the table
- Players must avoid congregating around the table before or after play to allow access for others
- All table accessories and equipment used will be sanitised after each match/rubber
- Sharing food or drink is not permitted
